WORK EXPERIENCE

Duration: April 2022 – November 2022 Position: Web Developer Intern at BRIAN O VISION, Hyderabad

During my internship at **BRIAN O VISION** from April 2022 to November 2022, I had the opportunity to work as a Web Developer specializing in **WordPress**. This period has been an enriching experience where I actively contributed to various web development projects, honing my skills and gaining valuable insights into the dynamic field of web development

PROJECT

Machine Learning techniques applied to detect cyber attacks on web applications

Develop and apply machine learning models to identify and mitigate cyber-attacks on web applications. Collect and prioritize data about website traffic requests and network traffic. Create useful features from data to distinguish between normal and malicious networks. Design and optimize learning classifiers, anomaly detection algorithms, and deep learning architectures. Other performance models use accuracy, precision, recall, and F1 score metrics. Work with software engineers to integrate training standards into web application security infrastructure. Monitor and control usage patterns, analyze results in attack detection, and provide improvement recommendations

EDUCATION

Andhra Loyola College , Vijayawada

2019-2022

B.Sc Big Data Analytics CGPA 6.35/10

Chaitanya Junior, Degree and PG College , Nandhigama

WORKSHOPS & HACKATHONS

Malla Reddy College - Web Development Workshop : At Malla Reddy College, I had the privilege of conducting a dynamic 2-day hackathon workshop on web development through Brainovision. The workshop was designed to empower students with hands-on experience, unlocking their creativity in the realm of web development. Participants immersed themselves in real-time website building, harnessing the potential of no-code tools to bring their ideas to life.

Sridevi Women's Engineering College - Empowering Women in Tech:

The 2-day web development hackathon workshop at Sridevi Women's Engineering College was curated with a focus on empowering future women leaders in technology. Participants immersed themselves in a dynamic learning environment, gaining hands-on experience in crafting websites. The workshop aimed not only to enhance technical skills but also to instill a sense of empowerment and self-confidence in their ability to shape the digital landscape.

Vignan Women's College - Nurturing Skills in Web Development:

A 2-day web development workshop at Vignan Women's College was a testament to our commitment to nurturing skills and fostering a deep understanding of web development concepts. Participants engaged in comprehensive sessions that covered the essentials of creating responsive and user-friendly websites. The workshop aimed not only to impart technical knowledge but also to ignite a passion for continuous learning.
